

CHROMEBOOK DATA SCIENCE

Welcome!

You're about to start working through an introductory course called "Introduction to Chromebook Data Science." In this course you will learn how to use a Chromebook, get a bunch of necessary accounts set up, and work your way through your first data science project. If you aren't quite sure what that means yet, don't worry! We will walk you through each step and explain things along the way!

1

Get Started!

1. Open up the Chromebook.
2. At the bottom left-hand of the screen, you will see 'Browse as Guest'. Click on 'Browse as Guest.'
3. A Google Chrome browser window will pop up. In the middle of this it will say, 'You're browsing as a Guest.' You're now ready to get started!

You're browsing as a Guest

Pages you view in this window won't appear in the browser history and they won't leave other traces, like cookies, on the computer after you sign out. Files you download and bookmarks you create won't be preserved. [Learn more](#)

2

Create a Leanpub account

This first course is going to be on Leanpub. You'll need an account.

1. Type 'leanpub.com' into the web address bar at the top of the browser and then hit 'enter' on the keyboard.
2. This will bring you to Leanpub's webpage. Click the black 'Sign up' button in the top right-hand of the screen.

3. To get a Leanpub account you will need to type your Name and Email in the blank boxes.

4. You will also need to choose and type in a username. A combination of your first and last name is a good username. For example, if your name is Jane Doe, your username could be JaneDoe.

5. Then, decide on a Password and enter it in the provided box.

6. Next, click on the empty box next to "I'm not a robot".

7. Finally, click the blue 'Create Account' button.

3 * NAME
John Smith

* EMAIL
you@domain.com

4 * USERNAME
leanpub.com/u/ username

5 * PASSWORD

6 I'm not a robot

7 Create Account
