

# Google Sheets

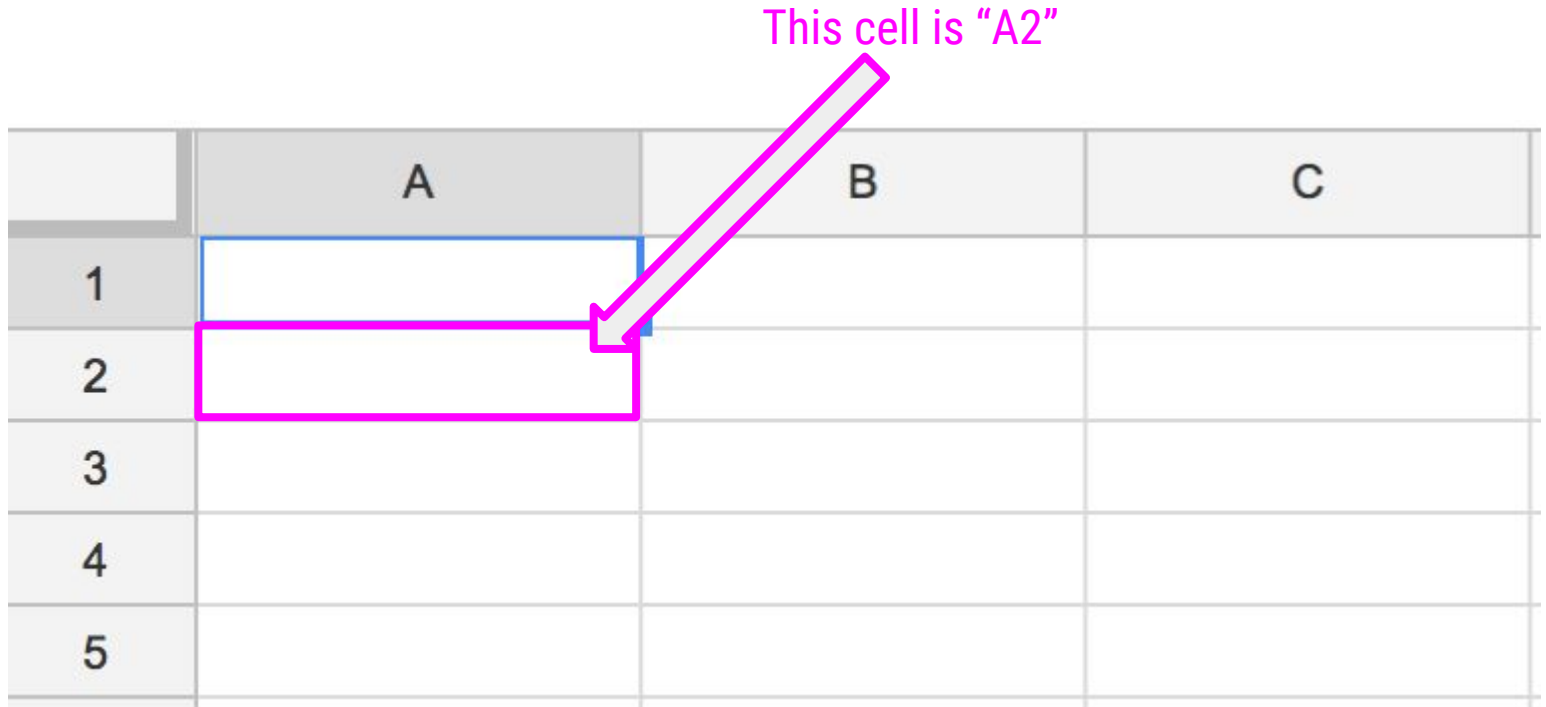

Introduction to Chromebook Data Science

A spreadsheet!

The diagram illustrates a spreadsheet grid. The columns are labeled A, B, and C, and the rows are labeled 1 through 5. A blue outline highlights the cell at the intersection of column A and row 1. A blue square handle is located at the bottom-right corner of this cell. A blue arrow points from the text 'a cell' to the highlighted cell. A bracket labeled 'columns' spans the top of the grid, and a bracket labeled 'rows' spans the left side of the grid. A large grey arrow points from the text 'A spreadsheet!' to the grid.

	A	B	C
1			
2			
3			
4			
5			

Any cell in a spreadsheet can be identified by column letter and row number.

This cell is "A2"

	A	B	C
1			
2			
3			
4			
5			

# **The Basics of Tidy Data:**

1. Each type of data in one column.
2. Each data point in one row.
3. One spreadsheet for each "kind" of data.
4. If you have more than one spreadsheet, they should include a column in the table that allows them to be linked.

## Project Question:

“How does the price of a bestselling book relate to how much the author is charging for that book?”

# PowerShell 101

The No-Nonsense Beginner's Guide to PowerShell

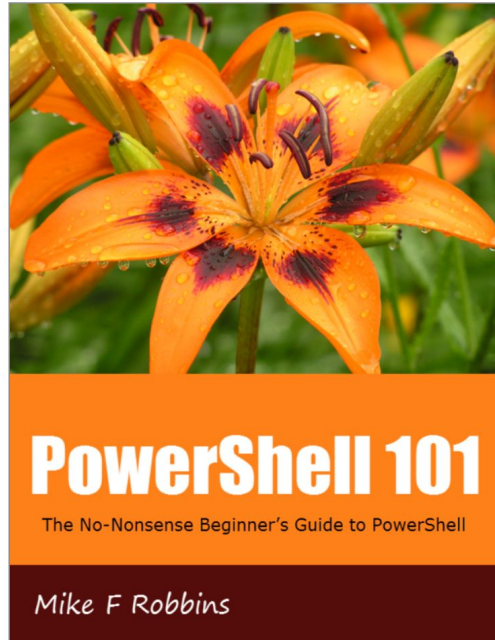

Mike F Robbins

What does the flower on the cover of this book have to do with PowerShell? Flowers grow from the ground up. My goal with this book is to help you build your PowerShell skills from the ground up and be well on your way to writing PowerShell code that's as beautiful as the daylily on the cover of this book by the time you finish it.

The screenshot displays the Google Sheets web application. The browser's address bar shows the URL: <https://docs.google.com/spreadsheets/d/1ssTeECitm4V8AqkTuCl10DmyGBkV2T0tPaQPawM0Kko/edit#gid=0>. The spreadsheet's title, "Untitled spreadsheet", is highlighted with a red rectangle. The interface includes a menu bar (File, Edit, Format, Data, Tools, Add-ons, Help), a toolbar with various icons, and a grid of cells. The first cell (A1) is selected.
